

## Question about Spiritual Telepathy

### Question:

How can we strengthen our telepathic sensitivity in order to deepen our service in the world?

### Response:

Let us first describe to you how we perceive *spiritual* telepathy in the most practical our perspective, the development of telepathic sensitivity among human beings is critical to the Hierarchy's efforts to implement the divine plan. Were it not for this human capacity, none of the books of the great esoteric authors would exist. Helena Blavatsky, Alice Baily and Helena Roerich, as well as others, were able to prepare humanity for the emergence of a new age based upon their developed capacity to receive information and instructions from the Hierarchy.

From that time, several other human beings have also developed this ability, although in different ways. It requires qualities that emerge as the Path unfolds through the tests and trials of discipleship. We're speaking only about telepathic communication with the members of the Kingdom of Souls in furtherance of the Plan. There are, of course, other levels of telepathy – from humans to humans and humans to animals – which do not depend upon the evolution of consciousness referred to here. Those abilities are more akin to the spontaneously arising talents of prodigies in spheres ranging from music to mathematics. These gifts arise from past life accumulations of talent.

In response to the question at hand, we are focusing on the attributes of conscious souls who have awakened to the reality of being alive within the unitary life of Earth and who have developed a sense of responsibility for the well-being of this one Life. In

addition, they are committing their lives to sustaining and elevating this Life. These souls are few in number, compared with the millions of awakening souls at this time, but they are of great significance to the Plan.

Nearly all incarnate human beings suffer under the longstanding illusion that the spiritual kingdom is unreachable, that it exists in a realm that is higher and unapproachable by humanity. That was the illusion perpetuated by organized religions, which served to perpetuate their role as essential intermediaries between the human and spiritual kingdoms. However, humanity has outgrown the need for such intermediaries as the new wave of spiritual energies flows into the planet with Earth's evolution into a subtler realm.

This question carries great importance for it contains a necessary element to evoke the light of the Hierarchy—the light that filters into the consciousness of every soul who makes a commitment to serve the plan of evolution and for whom that commitment takes priority in their lives. This is a major key to strengthening telepathic sensitivity, along with the purification of the three bodies (physical, emotional and mental) that gradually occurs on the path of transformation.

What is hopeful for us is the acceleration of awakening that is taking place at present. Every process is being speeded up – from the destruction of the old world order to the construction of the new world order. The growth and spread of spiritual telepathy is vital to this new construction especially now, to alleviate the fear of catastrophe and infuse human minds with the light of the new world being born from developing the latent qualities of the soul.

These qualities and capacities, lying dormant until this momentous turning point in evolution, are now essential to ease the current stage of transition. Spiritual telepathy is one of the most essential as it allows the Hierarchy to generate more channels of communication that will serve, in one way or another, to assure humanity that

everything occurring is part of the evolutionary process and plan – no matter how dire, or seemingly lacking in reason, or incomprehensible to human minds.

It's important for you to bear in mind that everything will be made new as the Plan unfolds. The removal of layers of density will facilitate humanity's ability to communicate with one another and with those of us who eagerly look for those advanced souls who are ready to become our collaborators in implementing the next stages of the evolutionary plan.
